

March 27, 1984

LB 561, 761, 902, 1125, 742  
LR 322, 323

CLERK: Yes, sir, I do.

SENATOR CLARK: All right.

CLERK: Mr. President, a study resolution, 322 by Senator Fenger calls for a study to assess the potential impact of prevention, health promotion, and risk reduction type programs on the health care system and resources of the state. 323 by Senator Fenger calls for a study of the availability, accessibility, and affordability of adequate health care services including mental health care, with emphasis on certain designated areas.

Senator Fenger would like to print amendments to 761; Senator Goll to 1125; Senator Withem to 561; Senator Wesely to 902; and Senator DeCamp to 561.

Mr. President, LB 742 was introduced by Senator Scofield. (Read title.) The bill was read on January 4. It was referred to the Ag and Environment Committee for hearing. The bill was advanced to General File. There are Ag and Environment amendments pending.

SENATOR CLARK: Senator Peterson, Rich Peterson, is he there? Is there anyone who can take the amendments for the Agriculture Committee? Senator Scofield, do you want to take the amendments for the Agriculture Committee?

SENATOR SCOFIELD: I regret that Senator Haberman is not here today. I believe we have agreed to not introduce these Ag and Environment Committee amendments and instead accept one of mine, and Senator Barrett has an amendment to that amendment. So I would ask for the defeat of the Ag and Environment Committee amendments and then proceed to mine.

SENATOR CLARK: Is there any debate on the committee amendments? If not, to adopt the committee amendments all those in favor vote aye, opposed vote nay. Record the vote.

CLERK: 0 ayes, 21 nays, Mr. President, on adoption of committee amendments to the bill.
